Professional Summary

Aspiring Software Developer with hands-on experience in MERN stack, building full-stack web applications and REST APIs. Strong foundation in Data Structures and Algorithms with a focus on problem-solving and scalable system design. Passionate about developing efficient solutions and continuously learning modern technologies.

Technical Skills

- **Prog. Languages:** Java, C/C++, Python
- **Frontend:** HTML5/CSS, JavaScript, React
- **Tools:** Git, Postman, VS Code, Jup. Notebook
- **Databases:** MongoDB, MySQL
- **Backend:** Node.js, Express
- **CI/CD:** GitHub, Vercel, Render

Projects

E-commerce Shopping Website

[Live](#)

- Built a full-stack e-commerce application using the MERN stack enabling product browsing and order placement.
- Developed responsive and user-friendly UI components using React.js, ensuring seamless navigation and enhanced user experience.
- Developed REST APIs for order processing with stock validation and automatic inventory updates.
- Integrated frontend with backend for real-time data handling and seamless user interaction.
- **Technologies Used:** React.js, Node.js, Express.js, MongoDB, REST APIs

Web Automation System for Loan Application Portal

[Live](#)

- Built a Python automation to handle bulk data entry on a government portal using Selenium WebDriver.
- Integrated Excel processing with OpenPyXL for reading and updating records.
- Implemented explicit waits, retry logic, and error handling to ensure stability in real-world conditions.
- Reduced manual effort and improved accuracy in large-scale data processing.
- **Technologies Used:** Python, Selenium Automation, Excel Automation, Error Handling, Debugging

Organ Donation Compatibility Portal

[Live](#)

- Built a web-based system to match organ donors and recipients based on medical compatibility criteria.
- Used structured datasets sourced from Kaggle to simulate real-world donor-recipient scenarios.
- Led frontend development and ensured accurate data handling and dynamic result generation.
- **Technologies Used:** HTML5, CSS, JavaScript, Node.js

Education

VIT Bhopal University, B.Tech in Computer Science and Engineering	CGPA: 7.36	Aug 2022 – May 2026
The Model H.S. School, Bhopal, Class XII (MP Board)	Percentage: 89.4%	July 2020 – May 2021
The Oxford H.S. School, Sehore, Class X (MP Board)	Percentage: 89%	July 2018 – May 2019

Certifications

- AWS Cloud Practitioner [\[Link\]](#) April, 2026
- The Bits and Bytes of Computer Networking | Coursera [\[Link\]](#) Jan, 2024

Achievements

- Solved 150+ problems on [GeeksforGeeks](#), strengthening DSA skills. [\[Link\]](#)
- Built resilience and time-management skills under academic deadlines.
